ASSESSMENT

Talem Home Care goes through a detailed assessment of your lifestyle preferences and health needs. That assessment, coupled with your financial resources, allows us to help you reach a decision that ensures the ultimate in personal satisfaction and comfort.

PLACEMENT

We only work with communities and facilities that maintain the highest standards. It's simple, if we wouldn't feel comfortable placing our own parents at a community, then we won't try to place you there.

REFERRAL

Talem Home Care has a network in place with virtually every aspect of the older adult community. We're confident that if we can't help you with your situation, we know somebody who can. That includes everything from realtors to help you sell an existing home, to where to look for financial help, to even finding people who can help with the physical move itself.

FEELING CONFUSED, STRESSED, & OVERWHELMED?

Navigating through the complexities and the confusion of today's health care system can cause you or your loved one to experience frustrations, particularly at points of transition in care.

The staff at Talem Home Care is committed to assisting older adults and their families with their search for housing and services that best fits their needs.

After our initial assessment and consultation, Talem provides you detailed information on the various types of services and housing options available to you. We will present you with a selection of options prior to scheduling any visits to living communities. Once you have narrowed your interest to the most appropriate facilities, Talem will schedule tours and accompany you.

Often we can arrange your tour so that you can join facility representatives and other residents for lunch to get a better sense of the community. When you find the right place, we will assist you with necessary paperwork.
